INRRODUCTION OF E-MARK

With more than 20 years manufacturing experience in professional hand-tool era, E-Mark Tools International Co., Ltd has always insisted on the principle of honesty, innovation, and top quality. In this competitive industry, we always believe that automation will be an important factor of a success business. In this case, we have been working on office and production automation not only to provide the best information and service for our customers, but also to ensure the stable quality of our products.

Building up credit as a factory in the past 2 decades, E-Mark, which was recognized as a logo of excellent products and customer service, is now coming over to bring more innovative product and better service to our customer as a solid partner to the market. We are convinced that our experience in manufacturing and product planning will bring best products to the market for both our existing and new coming customers in the world to lead us to better business.

Ericsson Lee
Vice General Manager
